

Team Sopris Board Minutes

Date: 6/2/20

Present: Tiffany Lindenberg, Taylor Kidd, Kayo Ogilby, Steve Vanderhoef

Guests:

Minutes kept by: Kayo Ogilby

Time	Agenda	Discussion	Action
Old Business			
	<p>Pool Reopening Discussion:</p>	<p>Masters opening first. 10 people in including coach and life guard.</p> <p>Thoughts on times: 45 mins in pool, 15 mins clean, then swap groups. We will have to be supplying our own lifeguards. This can be within our own team for people who are certified and team sopris can pay them.</p> <p>The plan for the community center is to open the 15th, upstairs and downstairs, with limited opening.</p> <p>July 1st will most likely be the next phase.</p> <p>Discussion on how we are going to role out in pool sessions.</p> <p>Taylor spoke to the app "Sign Up Genius" for managing practices.</p> <p>Community center wants us to track who comes in and out so that if someone ends up with the virus it is known when they were last in the center.</p> <p>Discussion about the pay version of this app because of the features it will allow for sign in, reservations. Board approved this \$10 a month fee.</p> <p>We discussed the protocol for daily practices and how this all works to manage the virus responsibly. See Team Sopris Operating Scenarios document for details (in this folder).</p> <p>With little kids there won't be a lot of training initially, mostly drills and games. This is consistent with what</p>	

	<p>CoVid Coach</p> <p>Protocol for Testing Positive for CoVid 19 and Travel Quarantine.</p> <p>Waver</p> <p>Parent Meeting</p> <p>Fees</p> <p>Masks</p>	<p>other teams are doing.</p> <p>We discussed what the first meets will look like - virtual meets.</p> <p>We will need volunteers to manage social distancing. Most likely not necessary for Masters. This person probably not necessary until we have little kids and we are at 16 people. This person will take attendance, manage social distancing, etc.</p> <p>We discussed what to do if people travel. Rachel discussed what they are doing at the hospital.</p> <p>Suggested Plan: If you leave the RF Valley you check in with coach. Then you are on the radar and you can be tracked etc. Tell people to self monitor, take temp twice a day, if you feel mildly ill or heart burn or stomach issues you should be cautious for those days.</p> <p>What if someone tests positive: Suggested Plan that we adopted with Rachel's advice: Training pod will not participate in any in-person training for 7 days if there is a covid positive swimmer.</p> <p>Steve is looking into this. We will discuss this at parent meeting.</p> <p>Steve feels that this should happen within the next week.</p> <p>Right now nobody is getting charged. Steve suggested that we don't charge anyone until we get back into the pool.</p> <p>USA swimming came out with their registration and it is for a year and half.</p> <p>Our expenses right now are minor and Steve feels that we can operate for a while without fees and ask for donations.</p> <p>Tiffany Lindenberg has been looking into masks. We plan to order a batch and most likely include this in the t-shirt fee but Tiff will look into</p>	<p>Plan for parent meeting: Masters: Wednesday June 10th 5:30 pm. Thursday June 11th 5:30 pm via zoom.</p>
